Testimonial letter

Dear Harold,

On behalf of Assmang Khumani Mine Operations Department and the participants of the various maintenance courses you ran during 2009, I would like to offer my thanks for the professional way in which you conducted the training. The courses not only met but exceeded our expectations.

The courses were well structured. But what the participants appreciated most were the practical examples that you used to help us gain a better understanding of the material. And you succeeded in getting not only senior engineering staff to understand the material, but also operators and artisans. Your use of humour kept us alert and interested on the topics at hand.

I would not hesitate to recommend you to any company who are looking to improve their maintenance effectiveness and problem solving ability.

Yours Sincerely,

Christo Booysen
